Director of Research Grants
Council for Tobacco Research U.S.A., Inc.
900 Third Avenue
New York, NY 10022

Dear Sir or Madam:

My colleagues and I have a multidisciplinary research program in cardiovascular and pulmonary vascular disease. Our active interests include the mechanisms of atherogenesis, thrombosis, and the role of the vessel wall in inflammation. The work is supported in large part by grants from the NIH. Our recent successes have lead to a large number of applicants for postdoctoral training with us.

I am writing to you to ask for information regarding your programs that support training fellowships, or small grants to support innovative projects. I would be pleased to receive your advice as well as application forms and instructions, where appropriate. Thank you.

Sincerely yours,

Stephen M. Prescott

Stephen M. Prescott, M.D.
